As we started to use [Stack Overflow for Teams] and saw how nice it was to have a repository of information, we started to see it spread to other teams. Our customer support team started using it, our people success team started using it, next thing we knew, we had [Slack] integrations all over the place.

Engineering
Expensify

What we love about Stack Overflow for Teams is that it's a very dynamic tool...there's just so many ways to use this as a liaison between different teams and different knowledge bases.
